Syntactic Times in Maqam Al- Yasameen by Khalid AL- Karaki
A Study in Structure and Meaning

*Ala' al Deen A. Al-Gharaybeh**

ABSTRACT

This piece of research deals with syntactic times in Maqam Al- Yasameen by Khalid AL- Karaki in a way that expends on language structure in order to reveal the beauty of the text and its meanings, for the meaning of structure differs from a text to another even though lexemes may be the same.

The association between meanings and structures in the text of the book has shown the wonder fullness of the text and has also shown that the poet has successfully utilized the suitable structures to convey his meanings. Thus, he was so expressive when he bitterly eulogized his brother, father and eagerness for well-built, artistic, style. He succeeded in elevating language vocabularies up to the level that suits his purposes and his experience.

Keywords: Poetry, Khalid Al-Karaki, Syntactic Times, A Study In Structure and Meaning.
