## **Factors of the Cognitive Connection in Su'ad Al-Sobah's Diwan "Elayka Ya Waladi"**

*Abdel-Mohdy H.H. Al-Jarrah\**

### **ABSTRACT**

This article aims at revealing the factors that contribute to the phenomenon of cognitive connection in Su'ad Al-Sobah's diwan "Elayka Ya Waladi", especially since these factors immensely influence the presence of cohesion in the poems.

The article begins with the definition of connection, cognitive connection, and poetic structure. It then moves to the discussion of the following factors: reference, meaningful repetition, logical connection and linguistic style.

It concludes with the observation that all the above – mentioned factors have played an important role in establishing the cognitive connection of the Diwan, which in turn achieved its cohesion and relatedness.

**Keywords:** Factors, Connections, Cognitive, Cohesion.
